

We have 4 local TV channels and NONE of the 4 have captioning for emergency situations, weather warnings, Fire warnings, safety bulletins. When captioning (caned captioning) is produced it will always override any weather or fire or safety bulletins and cover the crawler. Our local chapater of SHHH has repeatedly tried to advise, counsel, encourage captioning and to be in Compliance with the ADA mandated laws, but none have complied. Our local TV channels are 4/KOB/NBC, 5/KNME/PBS, 7/KOAT/ABC, and 13/KRQE/CBS. Thank you for listening, Sincerely Roger Proctor
